

YLs

We are proud to have approximately 400 YLs (women) as active members. Many serve as Instructors, Moderators, and in other leadership roles.

LONG ISLAND CW CLUB

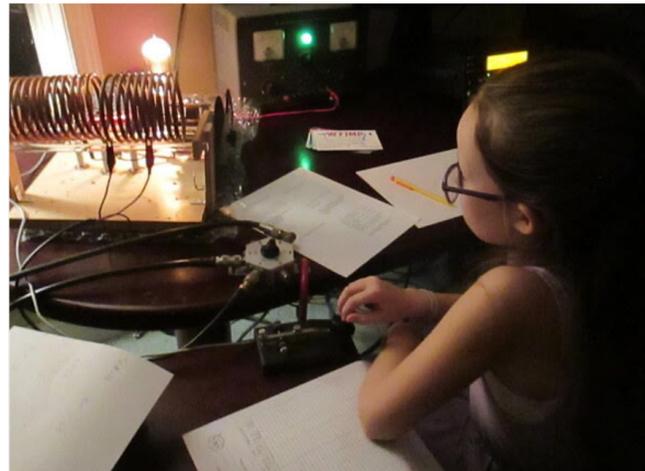

LICW
Teachers of Morse Code

Members With Disabilities

We are committed to ensuring digital accessibility for people with disabilities. Our curriculum, training devices, and website have been optimized for screen readers used by the visually impaired.

To assist students with hearing impairments we developed a haptic device that uses vibration to provide tactile feedback as a substitute for other sensory cues.

Kids Program

We started our kids program during the COVID epidemic to help families. We conduct 10 classes weekly for kids ages 5 to 17 in the USA, Canada, and the UK. We modified our adult curriculum with teaching methods specifically designed for early childhood education. To date, we have taught over 600 kids Morse code.

About Us

LICW™ - The Long Island CW Club established in 2018 and has grown to over 7700 members from all 50 states and 70 countries around the world. We conduct over 180 classes and forums weekly from Beginners to Advanced levels of proficiency. We teach classes in English and Spanish.

A Unique Culture

LICW is more than a club. It is a vibrant community of like-minded enthusiasts committed to keeping the rich heritage of Morse code alive. We provide a welcoming and inclusive environment where all members can feel valued and connected.

Academics

LICW developed its curriculum to give the average adult student the best opportunity to: (1) achieve proficiency in Morse code, (2) get on the air in a reasonable amount of time, and (3) learn with maximum flexibility.

How Long Will It Take?

Our Beginners Curriculum is designed to achieve basic proficiency and get students on the air in four months. Fluency takes about a year.

Maximum Flexibility

Our curriculum has no set starting point or reset. Students can begin learning Morse code at any time they choose. Classes are held every day of the week, with staggered start times to offer the greatest flexibility.
